Wheat Pool Drive Now On

Meeting at Strathmore Friday

The drive for additional members of the Alberta Wheat Pool is meeting with good success and large numbers of new signers are being added daily. In furtherance of the campaign, a well-attended meeting of wheat growers was held in the Memorial Hall, Strathmore, on Friday evening, being addressed by Mr. Ben Plummer, chairman, a member of the Wheat Pool Board, Mr. Dan Fraser, chairman of the local Pool Association, presided.

Mr. Fraser, in his address, presented a convincing statement of the arguments in favor of the Pool, and touched fully on the various details.

Pool Had Come To Stay

The Pool had now about fifty per cent of the wheat of Alberta under its control. The nearer they approached to 100 per cent, the more revenue the farmers of the province would derive. It was impossible for any farmer to be a neutral. If he was not in the pool his grain would be forced to break the pool price.

The pool idea had come to stay. He believed that after the first five years no contract will be necessary, for the pool scheme would be the only plan in operation in this province, and that Manitoba and Saskatchewan would also be operating in the same manner.

On the question of elevators, it had been decided at the last meeting of the pool that if the financial situation was satisfactory, a sum not exceeding two cents per bushel would be set aside for the purpose of buying elevators.

They had tried to avoid politics as far as possible. The pool had had an initial guarantee of \$250,000 from the Alberta government, but they were not on their own feet. They were getting on well with the bankers, and bankers were now convinced of the soundness of the pool idea.

Progress at Vancouver

Mr. Plummer went on to detail the progress being made at the port of Vancouver, where much of the pool wheat was being shipped. Elevator facilities were being enlarged, and more grain was being shipped. Elevator facilities were being enlarged, and more grain was being shipped. Elevator facilities were being enlarged, and more grain was being shipped.

Elevator Purchase

It was probable that \$750,000 would be set aside this year to purchase elevators. The plan of ownership had not yet been determined. The recent ownership plan had found favor, whereby the elevators were owned by the growers of each particular district, and the proportionate ownership depended on the amount of grain each grower shipped through the elevators. They looked to make a considerable saving on elevator costs as operation, under the present system the staff employed were larger than would be necessary under the pool system, where a grower did not have to rush his grain to market.

Following Mr. Plummer's address, several questions were asked and answered.

Mr. Theo. Thorsen expressed the position of the farmer and the grain exchange. The farmer stood in the position of a cow to grain dealers. The cow was fed, watered, and groomed, and milked twice a day. They could not blame the grain men. As long as the farmers did not sell their grain themselves, someone had to do it for them.

The following were appointed by the chairman to canvass the district: Messrs. Garratt, West, Cammaret, Womers, Leary, and Chamberlain.

At an interval during the meeting Dr. Givern read a petition which had been received from Drumheller Board of Trade, asking the appointment of an independent committee to see if the price of transportation of coal to Ontario could not be reduced to \$7.00 per ton.

Cheadle Meeting Abandoned

Mr. Plummer was to have spoken at Cheadle on Friday afternoon, but owing to some misunderstanding with regard to the hall no meeting was held.

Why Ford Predominates

Endorsed By Fleet Owners

In almost every business where fast and economical delivery service is a factor, Ford trucks have established an enviable reputation.

The experience of Robert Simpson Company Limited is a typical example. The Robert Simpson Company operates one of the largest truck fleets in Toronto, 55 Fords.

This fleet has proved so satisfactory that it is being constantly enlarged so practical and economical in operation that during the past five years not a single car or truck has been traded in.

The prompt and efficient delivery system which is an inseparable part of this store's service to the public is largely due to the flexibility and staunch endurance of this Ford delivery fleet.

The Ford has the confidence of its users. That's why there are so many Ford users.

And second in importance to the winner of the 200-mile grind, is the winner of the Carnival Queen contest for which many Manitoba

maidens are working hard, in order that they may earn the honor of being queen of the unique winter event.

Photograph shows three of the strong contenders for this year's honors. The upper team is that of C. B. Morgan, which captured the honors last year and is again very much in the running; centre photograph is that of "Shorty" Runnicks, and his racers which were second in the Pas classic last year and striving for first place in 1924; the lower photograph is that of Earl

Baintree Sneights

At a meeting of the U.F.A. held on March 17th, Mr. V. C. Chapman was elected secretary-treasurer.

After collecting all the eggs money for three months, we blew the whole outfit, along with a cream check and the proceeds of the sale of a basket of apples, in going to see the big hockey game between Calgary and Regina. As usual, we were just in time to see a bigger guy than ourselves grab the last rush seat. For the rest of the evening we had to content ourselves by "seeing the noise." Ain't it funny that when anything is going on, the little birds have always got to watch the proceeding through the big fellows' legs? 'Twas ever thus. How was the snuff? The papers said it was wonderful, and as all reporters are direct descendants of George Wash, we got to believe them. We also took in the game when the Tigers put the kibosh on Vancouver. We negotiated a second mortgage on the wheel barrow, and this time we sat in the reserved section with the high leavers. Ain't we getting giddy as the years go by? Why not? We have a lingering suspicion that when we go from here, it will be a trifle too warm for hockey, so we intend to grasp the goat by the horns while the ice lasts. Ice hockey, played by professionals, is easily the fastest game in the world, and those fights. Oh, boy! Do we shut our eyes when a couple of the lads are mixing it? Not at all that kind. That's where we get the interest on our investment, and if the truth be told that's what you like about the game too.

When an arvil, be patient; when a hammer, strike—Old proverb. W. A. Hatt is retiring from active farming, and a sale will be held at his place on Monday, March 24. Mr. Hatt informs us that he will have plenty of cats and drinks on hand, and he would like you to attend. Mrs. Hatt is a lover of a cook, and so a coffee maker, has no equal in the country, so let us all go. The general bill has decided that the pencil is mightier than the plowshare, and will devote his future life to the selling of groceries.

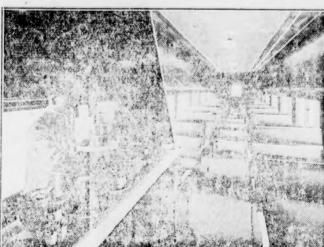

Mrs. Tom Glendinning left Baintree last week to visit a sick relative in Manitoba. Sure Major, that pathetic ditty: "It ain't goin' to rain no mo", has received our fair share. It is very sad, and if it should come true, it will be a son of a gun as well.

This is the story that decided the fate of a nation. On the morning of the battle of Bannockburn an English knight by the name of Henry de Bruce, named Robert the Bruce will be in front of the Scottish army in reply Bruce smote the Englishman with his hatchet, and the rest of the enraged Scots threw away the porridge pots and went after their ancient enemies so furiously that they never came back to tell another joke. After you have read the story you will find that the Scotch were right as they always are. A Scotchman went to his doctor complaining of loss of appetite. The medical man advised him to ride a horse for twenty miles a day, then he would come home very hungry. Sandy considered a moment then answered: "Yes, but wouldn't some other exercise do? What about the horse's appetite?"

On repeated last words: This is our last crop. No more hooch for this bird. Let's buy a Ford next fall. It ain't goin' to rain no mo'. Mrs. Hendry Godfrey begs to acknowledge with grateful thanks, the kind wishes and beautiful flowers sent to her at the Holy Cross Hospital by the Baintree U.F.W.A. Despite the stormy evening a large audience gathered at the school house last Wednesday when the Rev. John Gordon delivered a splendid lecture on India. With the aid of a large number of pictures, a thorough description of India was given by the lecturer, to the great enjoyment of those present. The next meeting will be held on March 26th, and as the Sunday School will meet first it will be advisable to have the younger people down a little earlier.

The regular meeting of the U.F.W.A. was held in the school cottage on Monday afternoon. Fourteen members were present, and a delightful afternoon was spent discussing the affairs of the local. Mrs. A. Van Camp and Mrs. T. Longbeham were elected members of the committee. The purpose of which is to further the interest of the juvenile movement. Mrs. Harry Parteous, secretary for 1923, presented a highly satisfactory report for the past year. Mrs. Charles County, Mrs. P. J. Lyons, Mrs. A. Van Camp, and Miss Francis Wyman contributed interesting papers on current events. An entertainment committee was formed, the members consisting of

LUNCH COUNTER CARS ON NATIONAL

LUNCH counter cars which will care for the needs of passengers in the colonies, first class and tourist cars of the main line trains, if they desire to patronize them, are to be seen on the Canadian National Railways for the convenience of the travelling public, and particularly of immigrants arriving in Canada. As an experiment, lunch counter cars have been placed in service between Winnipeg and Toronto. While these trains carry dining cars and while the Canadian National Railways also have lunch counters and restaurants at all divisional points, it is considered that the lunch counter car will be a great benefit to women travelling with children and to others who may be physically unfit or unable to leave the train at stations because of severe weather, or for other reasons.

The lunch counter has been fitted up at one end of a steel counter car, where the best grade of tea and coffee freshly made will be served. Light meals comprising cereals, sandwiches, pies, preserved fruits and other canned goods will be available at Canadian National standard lunch counter prices. A competent and courteous attendant will be in charge of each lunch counter and service may be secured at any time during the day.

The suggestion of the lunch counter cars was made by Mr. Walter Pratt, General Manager of Dining, Sleeping and Parlor Cars of Hotels, who has been anxious to provide this facility to further improve travelling conditions and add to the comforts of passengers on the Canadian National Railways.

VERSATILE CHICKEN

About all the hens we ever knew good for—that is, the backyard variety, of course—was to gobble up plenty of feed and lay eggs. Now along comes little Richard Garlock, of Hollywood, Calif., with evidence—fast.

At the conclusion of the afternoon's business, the members of the organization entertained to a dairy lunch by Mrs. W. T. Hopkins and Mrs. T. Longbeham. The next meeting will be held at the school cottage on March 27th, when the table hostesses will be Mrs. Billy Bell and Mrs. P. J. Lyons.

"HUMAN SKYSCRAPER"

Over in Los Angeles, Calif., there's a fellow who goes around looking down on his fellow man. Not that he has anything against the world in general, but nature has seen to it that he should tower above everybody else. And he does. His height is 8 ft. 3 1/4 inches, his weight, 203 pounds, and he makes em all gasp for breath when he strolls down the street.

His identity? He is John Aasen, a Norwegian lad and—mind you—he's

only 25 years of age. If he keeps on growing what will his height be by the time he reaches 50? Figure it out. In the above reproduction you see him being measured for a suit of clothes. The taller found the giant so unusually tall that he had to scurry around for a step ladder in order to get the measurements.

And when he jotted down the figures, they told us, the little fellow felt like putting in a hurry call for Omaha the Tentmaker.

REEVE SCRATCH

WRITES RATEPAYERS

To Ratepayers of Municipal District of Keoma,

—o—

Your council have once more placed the guiding of the affairs of your district in my hands, and I therefore take this opportunity of bringing some things to your notice that might otherwise be overlooked.

In the first place, I want to mention our arrangement with the Strathmore Standard, in which I was, in the first instance, the prime mover. There was considerable objection to the scheme in several wards, but this gradually wore away, except in ward three, which still insists in opposing the contract entered into between the Strathmore Standard, and the district, whereby each ratepayer received a copy of the paper free.

When I introduced this matter in the council, I was sure it was a good thing, as we had no way of placing the news of the district, with by-laws, tax sales, and other advertisements before the people, as there was no paper that covered the district as it should to give the results required; and now, after several years of trial, I am positive it is the only thing for a progressive wide-awake municipality.

Had it not been a proper thing to do, municipalities such as Grasswood and Bow Valley would not have adopted the system, as they have.

We are not trying to force a paper on you that you do not want. We are only interested in the fact pertaining to our municipal news. Mr. Mackenzie believes in doing his best to make the paper profitable to you in many other ways, and since it will now cover at least the three municipalities it should be of considerable value to you as an advertising medium. However, I am not dealing with that phase. We have had no many things to take up our time that we have not been able to give the minor details as much attention as we should; but this year we expect our secretary will give more attention to reporting of our council meetings, and other matters that come to the attention of the council, so you may be better informed than previously. We would therefore be sorry should any ratepayer drop the paper (it has given it very careful consideration). I think those who read the report of our last meeting will realize we have made a good start to give you the news, and we are now considering making it even more interesting.

You also have the report of our council meetings and can compare them to your advertisement.

We have received some criticism on the rate given the secretary, but when you consider we have increased the volume of business, to say nothing of the work required by the tax collector's proceedings, many times in the last few years. It will give you some idea of the amount of business transacted in 1923, when you know we were paid in commissions for collecting taxes for Hall Board, overment, and outside school districts, the sum of thirty-five hundred dollars.

There are other reasons justifying the rate which time will not permit me to enumerate.

You will notice a resolution from a Saskatchewan municipality requiring Eastern grain route, was turned down by your Council. We take the stand that the western route is our outlet, and should be our inlet. Anything brought up to divert our traffic in any other direction should be carefully considered.

Yours truly,

A. C. SCRATCH

If You own several Suits, and Change off Wearing them, You not only Freshen your Appearance and your Feelings, but Prolong the Life of each Garment.

The old Romans used to say that no pleasure endures unseasoned by variety. Forcefully does this apply to Men's dress.

To derive the full need of satisfaction from dressing well, You should possess enough clothes for frequency of change.

This means two Overcoats, at least three Suits, and two Hats, not to mention cravats, shirts, collars, hosiery and handkerchiefs. In sufficient variety to allow freshness of color, pattern and harmony.

One plain-colored Suit, one striped Suit, one subdued or lurid or mixture effect.

Coal Costs

Drumheller Board of Trade are re-broadcasting a petition sent out by Kingston Board of Trade, asking support in favor of a commission to investigate and press on the Government the desirability of a \$7.00 per ton rate on coal to Ontario.

If a \$7.00 per ton rate on coal would develop the coal transportation business and pay the operating costs there is no doubt that the railways would adopt it, but both Sir Henry Thornton and the C.P.R. heads declare that it would not pay hauling costs. A rate of \$7.00 per ton over the C.N.R. would mean that the people of C.P.R. would have to pay for the transportation of coal to Ontario.

This is not the usual Ontario method of developing Canadian trade. In the case of boots, implements, machinery, clothing, etc. they do not ask a reduced freight rate, but for a tariff on goods coming from other countries. Usually they have been successful in getting it, and this enables the Ontario manufacturer to pay the freight and sell at the same price as the outsider, plus the duty, which we pay. The same method, putting a tariff on American coal, would enable the Ontario coal to be patriotic, and keep the home fires burning with Alberta coal. Why not try it?

There is another angle to the coal situation, illustrated by a quotation from last week's issue "The Countryman (Alberta) Journal." The following is part of the report of a ratepayers' meeting held there:

"The Public Utilities Commissioners had stated that the only way they could see for Coleman to get a cheaper rate for water and light was to have the work done by cheaper labor. This the Mayor would not agree to adding that it would not be good policy to have cheap prairie labor introduced into this community in order that miners and others might have to pay a little less for light and water. It had been pointed out to the Mayor that his men could be gotten from the prairie to do the work on a new water and light system at \$2.50 a day, against \$6.85 which is the lowest wage the International pays any of its laborers. That the Mayor refused to consider introducing into Coleman cheap or 'scab' labor."

Voices from the audience: "Mr. Mayor, your action is perfectly all right."

Another voice: "We admire your stand, 'Billy,' and are prepared to back you up. We don't want such cheap labor here."

It is really a wonder that the Plutocrats of Coleman, who dig ditches for waterworks at a minimum wage of \$6.50, allow the prairie "scabs" to buy their coal at all.

Memorial Hall Standing

At a meeting of the Hall and Finance Committee of the G.W.C.A. held last Thursday evening, a final settlement of extras, etc. was arrived at with the contractor, Mr. M. S. Harte. This settlement had been delayed on account of the absence of the architect, Mr. Chas. Hays. The sum owing to the contractor at the end of February was \$274, which amount it is expected, will be paid this month, the total cost of the structure having been over \$12,000. The indebtedness on the hall now consists of \$2500, covered by mortgage. With heating plant, furnaces, furniture, etc. the hall represents an investment of over \$18,000 and the boys are entitled to congratulations for the way they have worked during the past three years to have the hall constructed and paid for. A large proportion of the building was paid for by public subscription, but much of the amount raised was secured by concerts, dances, stampedes, etc. The Ladies' Auxiliary last year completed payment of the \$650 balance and have since spent a considerable amount on furnishings.

The New Hegira!

W. D. Tregg, the stormy petrel of the Bow Valley, is the moving spirit in the planning of a new hegira.

The settlers on the Canadian Pacific Railway lands in the Bow Valley are to leave all behind and make their way to South America, and there take up fur-bearing and proceed to make fame and fortune.

Perhaps, on the fruitful slopes of the Andes, or on the broad pampas of Argentina, or amid the forests of Brazil, a new settlement of English speaking farmers will make their homes. Who knows but what some day a new, ambitious nation might spring up, and perhaps Mr. Tregg will be president or king, or whatever they will call their rulers then!

It is such Quixotic ideas that rule the chances of the C.P.R. settlers for obtaining better conditions. When leaders come forward with childish nonsense what success can be expected of the movement?

The Mail believes the farmers on certain sections of the C.P.R. Bow Valley tract deserve better consideration from the company. In fact hundreds of farmers have pulled out from the eastern section without the company making one real, earnest effort to induce them to remain.

Perhaps that is the exclusive, private business of Canadian Pacific Railway, but it looks like a short-sighted policy, and when taxes begin to accumulate on high-priced land that has reverted back to the C.P.R., that company may decide upon a change of policy.

Let the C.P.R. reduce the purchase price of their land, or cut the interest off for a few years, and the settlers will have some inducement to stick. Otherwise another year will see the most of them departed.

NIGHTINGALE THESPIANS PERFORM

The Nightingale Dramatic Society presented their latest production, "The Deacon's Confession," in the local hall Friday, March 15th, to the great enjoyment of all present.

Mr. Malcolm, as the Deacon, displayed exceptional ability. His only error being that he didn't jump when Cal told him.

Mr. Connor, as Calvin Spangler, displayed his extensive knowledge of both baseball and love making. Walter Osmond, as Dr. Sopher, proved that he had made a great mistake by choosing to make himself known to the ministry as his life work.

Mr. Laycock, as Harry Baxter, ably took the part of sporting writer for the pink sheet.

Mr. Bennett, as Rafferty, made a great hit, both with the audience and Katy O'Rourke.

Mrs. Anderson successfully carried the part of the Deacon's wife. "Dell has our sympathy hereafter."

Miss Lounsbury, as Ruth Penrose, bore with equal grace the scenes of her mother, and the love making of Harry Baxter.

Mrs. Connor, as Georgia Sopher, the minister's daughter, easily brought Calvin to a full stop, and made him stand without hitching.

Mr. Bennett, as Katy, proved an efficient maid.

The show was followed by a dance; the music being supplied by local talent. The proceeds of the evening were turned over to the building fund of the hall annex.

The play will be staged in Rockyford and Strathmore soon.

A Legend of the 17th
—o—

It seems that a great many years ago (said Mr. Carpenter, at a recent function held in Irticanna) when the Irish were far more superstitious than they are at the present time, the mice had overrun Ireland, and, as at that time the Irish did not believe in killing an animal of that kind, they held a large mass meeting to see what could be done, and they finally decided to send to London where there were reported to be a great many cats. Well, they got the cats, and the cats got the mice, but the cats thrived greatly and soon the cats were worse than the mice had been, and, as they still did not want to kill the cats, they after another mass meeting, decided to import a large number of monkeys to kill the cats. This they did, and the monkeys killed the cats, but they multiplied and became a menace to the country, so there were many meetings to decide what to do with the monkeys. They finally hit upon a plan of sending to Scotland and getting some of the wild hill Scots to come with their clubs and kill the monkeys. Now these Scots, in the excitement of the chase, often killed an Irishman, and their lives were in danger, so they finally hit upon a scheme to prevent the killing of the Irishmen by each wearing a piece of green ribbon. That way the Scotchman could easily tell them apart.

The surprises are going strong yet, but two weeks more will see them at an end for a season.

We believe T. Stensen has changed his shade for good. His phone and address will be Vulcan. Ted is quite a Dane. He had his passage booked for Denmark, and paid so much down, seeing a good buy on some land joining his own, spent what he thought would have been wasted going to Denmark, on the said property, forfeiting his deposit of thirty dollars. He was a little put out at dropping the amount, but he says he will make it up on some day on a horse deal.

M. C. Hansen and family arrived at their destination in Washington. They seem to like the surroundings. Chr's will be in communication with Canada, owing to leaving four of his family married here. Chr's thought he had better move before all the family got married in Canada. He was going to be mixed up with too many nationalities. His three daughters in Canada got, respectively, Scotchman, Swede and Dane. Andy does not say what the old man thought he would like to get a Yankee son-in-law, and crossed the line.

D. McBean and J. A. Grant attended "Meech" at the Grand theatre on the 7th inst. Who said the Scotch are clannish?

"Papoose Go!"

Many queer present day lads had their origin over on the Pacific Coast—chiefly in or around Los Angeles, Calif. The latest report from that city tells of a new stunt for women got enthusiasts—er, the married ones with children, of course. It has been dubbed "Papoose Golf" and above is a picture of the young mother who started the fad—Mrs. F. Tenyson.

The picture is self-explanatory. It shows there's no further need for mother's to turn in "terrible scenes" of worry over their youngsters at home. They can simply take the little tots along, packing them in their golf bags to be conveniently carried over one shoulder. Simple enough, isn't it?

Carseland Notes

The U.F.A. dance last Friday night was a great success. A big crowd, lots to eat, and a good time for everybody. The net return was some fifty dollars. A number of cakes that were not needed for lunch were auctioned off by our brand-new auctioneer, H. A. Bishop.

The school chimney lacks about three feet of being high enough, and caused some damage last week.

Mrs. Frank Nash spent a few days last week in Calgary, and at Brant, visiting friends.

U.F.A. meeting next Saturday at 2:30 p.m. Ordering spring supplies is part of the business.

W. L. Brown is around town and feeling good.

A play by the Carseland Dramatic Society will be staged Friday, March 28th. "Deacon Dubbs", a rural comedy drama in three acts, which is a New Zealand story. The play will last about two hours and a half. Special scenery is being painted, and nothing is being left undone to make the presentation a success.

Cast of characters as follows: Deacon Dubbs, H. Pakenham; Amos Coleman, W. Moran; Rawdon Crowley, W. L. Irvine; Deatonomy Jones, A. O. Myers; Major McNut, A. W. Crumby; Rose Raleigh, Miss Dick; Miss Philippa Peeper, Mrs. Lonsdale; Emily Dale, Miss I. Hunt; Trixie Coleman, Miss F. Halloran; Yennie Yensen, Miss E. Hunt.

Help Obtained for Farmers

Plan of Canadian Pacific Railway A Gratifying Success.

Ninety-five per cent. of the applications coming in from Canadian farmers for farm help under the scheme for that provision originated by the Canadian Pacific Railway after employment for the year round. This discloses a decidedly new attitude in the farmer's outlook on the farm employment question, and reveals a result which is not generally appreciated of the general progress being made in mixed farming throughout Canada.

Farmers are coming to realize that hiring farm labor for a few months of the year only is not as economical as it appears, being, in fact, expensive both from a national and individual viewpoint. When a man is brought in from the east or from a greater distance for work which only lasts part of the year, in the long run his fare is paid both ways by the farmer hiring him, the money he earns is taken away from the area of his labor and he again becomes an unemployed man for the country to place.

Applications are coming in at a very pleasing rate this year, and an even greater number of experienced agricultural laborers is expected to arrive in Canada under the auspices of the Canadian Pacific Railway to be placed with farmers who have asked for them, than came out last year, the first of its operation. The scheme proved so successful last year, in fact, that it has been continued as a permanent feature of the immigration and colonization work of the company, utilizing a new and not common, as it does, the wide-spread ramifications of the giant organization.

Applications made by Canadian farmers are sent direct to company representatives in those European countries whose nationals are required, and these men being intimately acquainted with Canadian conditions are able to select candidates—men, women, or juveniles—with a consideration to the farmer's personal needs and to his greatest satisfaction. Wherever in Europe the Canadian Pacific has established itself the Canadian farmer can secure help of the class he desires through the agency of the company.

Fairplay Notes

Mrs. R. L. Macintosh is improving after her operation.

Mr. Gifton has rented part of the Chasde Farm and expects to carry it on a large scale.

Mr. Walker has moved to the Garrison place and it is very much.

Mr. Drake has moved to the Corton place.

Mr. Geo. Jackson has a few cattle sent to Calgary for the Baby Feed Show.

Sunday School next Sunday at 2 p.m. Church services at 3 p.m. Everyone cordially invited.

CANADIAN NATIONAL PRESIDENT TALKS TO WESTERN EMPLOYEES

FOLLOWING up the first successful experiment in remote broadcasting from Winnipeg made about ten days ago, Sir Henry W. It is Sir Henry's intention, as soon as the company has completed its string of radio stations from coast to coast, to use this medium as often as possible to establish a personal contact with those he terms his "fellow employees" of the Canadian National system.

Slats' Diary

Friday—well we had a very good time at the party over at Eliza house and we danced and sat, candy and had punch to drink. But who ever made up the punch didn't do very much. It was very punk. I drank nine glasses of it and each one tasted worse than the before it.

Saturday—I went and took a new job at the grocery today a working. I like to work in a grocery because you can eat candy and cakes and lots of various things but I guess the boss doesn't approve of all those kind of things. Pa says to be successful in any calling you got to be fired with enthusiasm. And I was. Only the boss used all the enthusiasm which I was fired with.

Sunday—well I got shodded in church this morning because me and blisters with set to gather got to taking at a man with went a pose as all his hands and a limping on both feet. Blisters and me got to wandering whether he was limping on both feet or whether he was limping on one foot to play a saxophone. Or flute or something.

Monday—Prit near had to go to school without no breakfast this morning. I got up late and was drowsy. I had sent my face and hands and sent me back to do the same. I know why a fellow has to wash in the morning when it doesn't make him dirty just to sleep.

Tuesday—A lady has been a visiting her dad and has had 4 husbands and she said many one of them ever could afford a house with any place to call away her bed close and set, and she said the next time she marries a man it will be a man with a Cedar Chest.

Wednesday—speaking of all the wedding which has occurred round here and me has observed that the difference between the brides and men and other wives is that her in marriage what she is a going to get married to. Well the other women wonders what she will get married to.

Thursday—well pa is about all he got himself a mushy and a driver and a motor, and he says he will have a new plane so before many days he and me will be with the yamotee speaks of a Golf Widow and ect.
